

Plan Center For Jewish Headquarters

Plans for a Jewish Community Center for the San Gabriel Valley were mapped at a meeting Tuesday evening at the Sierra Madre Temple on North Lima street.

Education of children for model American citizenship, fostering of inter-racial and inter-religious understanding in the community, and providing social contacts for young people were among the objectives of the Center, as outlined at the meeting.

Being the only Jewish Temple in this part of the San Gabriel Valley, the Sierra Madre Temple will act as headquarters for the project, Dr. Nathan Jacobs, committee chairman announced.

Other Sierra Madreans formulating plans for the community center were Mrs. Jacobs, Mr. and Mrs. Ralph Cohen, Mr. and Mrs. Ralph Hurwit and Mr. and Mrs. Sam Perloff.

TRAILER COURT PETITION WITHDRAWN SAT.

Formal withdrawal of his petition for the establishment of a trailer court in the city of Sierra Madre, was announced Saturday by M. W. Meisenheimer in a letter to the City Planning Commission.

In view of the general opposition voiced throughout the city, he did not deem it wise to proceed with plans for the trailer court, the letter said.

Withdrawal of the petition resulted in cancellation of the open hearing scheduled for last Monday evening at the City Hall.

Clothing Acceptable For Shipment Not Later Than Monday

Mrs. John Fergus and assistants will be packing the clothing for Holland and the Philippines at the Woman's club house Monday, and if there are any for coming clothing it will be the last opportunity to donate.

Mrs. Fergus reports that people have offered clothing and shoes which need cleaning and repairing and if any one would like to contribute money it can be used for this purpose.

KIWANIS MEETS THIS WEEK WITH GLENORA CLUB

The inter club meet at Glendora Friday, tomorrow, will take the place of the regular Kiwanis luncheon of Tuesday. Kiwanians will meet at the City Hall at 11:30 to start for Glendora.

However, there will be a board meeting at the home of Chas. Klunk, 142 Santa Anita Ct., Thursday evening at 8:00 o'clock.

LATEST FIRE

A fire in the L. S. Godolphin home at 187 West Montecito street, early Sunday morning, brought out the city fire department and resulted in minor smoke damage to the interior of the house.

The fire resulted when accumulated fat drippings became ignited in the oven of the kitchen range.

LIANS TO MEET AT OLD ADOBE

The Old Adobe cafe will henceforth be the regular meeting place for the Sierra Madre Lions Club, at 7 p.m. Tuesdays, Captain E. G. Everett announced yesterday.

Recreation Youth Dance Becoming Very Popular

The younger group have discovered the Youth Dances given Monday evenings at the Woman's Club in the summer recreation program are really worth while. Last Monday evening 45 young people enjoyed the dancing. Dan Parker is providing the music and Mrs. Sally Clark is on hand to help teach new steps and dances. Mrs. James Dewey is the chaperon. Recreational Director Tom Morrow says the response is greater than he had hoped for.

Letter to the News

Tuesday, August 13, is the deadline for Council action on the State Pension Plan for City Employees.

El Monte and South Pasadena voted to adopt the State Pension Plan at the same time that Sierra Madre voted its approval and both cities have put the plan into effect.

As an insurance man, interested in Retirement Income, may I ask why the Council has not acted on the State Pension Plan?

'REMBRANDT OF THE ROVERS'—H. Robert Hildebrand, Sierra Madre painter of dogs, is shown with his portrait of a cocker spaniel owned by Charles O. Matcham of Bel-Air.

SIERRA MADRE PAINTER OF DOGS WILL EXHIBIT IN LOS ANGELES

The "Rembrandt of the Rovers"—a dog portrait painter—is busy in Southern California preparing his most important one-man show.

H. Robert Hildebrand, of 832 Woodland drive, Sierra Madre, has done the portraits of 4000 dogs all over the United States but he has lost none of the zest which makes each new picture an individual adventure in itself. One of his latest subjects was the cocker spaniel of Charles O. Matcham of Bel-Air.

PLANNING EXHIBIT

Now preparing an exhibit of the pets of famous personages in Los Angeles for a show to be sponsored by the Childrens Hospital Society headed by President Maj. Edwin Hildebrand is busy all day handing out crumbs. For it is "crumb psychology" which keeps his subjects interested and permits him to capture typical expression so well known to each owner.

As he sits on the floor with his huge array of crayons, Hildebrand intrigues the dog model with tidbits of ordinary dog biscuit. "If I offered them a whole biscuit they would turn up their noses at it," he explains as he begins deftly to sketch in a head. "But if I give them a crumb at a time they sit interested and it's a cinch."

SETTERS TEMPERAMENTAL

Hildebrand gets along with all breeds but he admits chows and occasional German shepherds present a problem. Irish setters are temperamental and are liable to have their feelings hurt. You mustn't laugh at them. Boxers and cockers pose best of all.

Crayons are used rather than oils because oils take too long and the subjects droop or get too restless. Hildebrand throws a piece of crayon in the air to get ears up, keeps a running fire of small talk with the dog to make its expression animated.

"I used to paint people," Hildebrand remarks. "But not any more! Dogs are so much nicer!"

TWO LOCAL FIRES RECENTLY SPONTANEOUS COMBUSTION CAUSE

It will require much vigilance from now on until we have rains to prevent fires. We can't let ourselves become careless and thoughtless about the danger of fire. Watch carefully for any accumulation that may spell fire. We have had two fires within the past two weeks that came from spontaneous combustion. Both were discovered by the police patrol before the fire had grown into a dangerous height. The hot sun will start oily rags and such into fire. Avoid this. We earnestly ask that all precautions be used to escape the fall fires that are so prevalent in most regions. Keep the FIRES OUT.

New Highway Plans Near Sierra Madre

Several changes in highways adjacent to Sierra Madre on the south and west, are provided in amendments to the county's master plan of highways, as approved last week by the County Board of Supervisors.

Sierra Madre Boulevard will be a divided highway with 60 feet of right-of-way on each side of the Pacific Electric Railway from Huntington Drive northerly and easterly to Michillinda Avenue, under the new plan; while Rosemead Boulevard will be extended northwesterly from its present terminus at Foothill Boulevard by a new 100-foot route to connect with New York Avenue in Altadena.

The new route for the Rosemead extension will be several hundred yards westerly of the originally planned route across the Hastings Ranch property. Other highway changes involve the easterly extension of Washington Boulevard for a connection with the Rosemead extension. The new Washington Boulevard route will be somewhat more southerly than under previous plans.

School Tax Rate To Remain The Same

The same tax rate as last year, of 90 cents for each \$100 assessed valuation, was adopted unanimously by the Sierra Madre School district board of trustees, at a meeting August 1, accepting the 1946-47 budget of \$94,383. No protests were heard at the public hearing conducted on that date by E. Waldo Ward, board president.

Severe Burns Hospitalize Garage Man

Painfully burned about the throat, hands and chest when an explosion threw flaming gasoline over him last Friday, Joe Belohlavek, of the Central Garage Baldwin avenue and Sierra Madre boulevard, is recovering in St. Luke's hospital.

Belohlavek was pouring gasoline in the carburetor of a car standing on the garage driveway, when the motor suddenly back-fired and ignited the gasoline, which exploded in his face. Rolling on the driveway in an effort to extinguish the flames, Belohlavek attracted the attention of Marshall Mendel, who put out the fire and called a doctor.

Dr. Nathan Jacobs administered first aid and drove the garage owner to St. Luke's hospital, where he was treated for first and second degree burns, and confined in the hospital for treatment. He is expected to be released in about a week, according to a hospital spokesman, but will be unable to work for several weeks.

Building Permits

Building permits for the month of July continued to soar in the valley-foothill cities, the largest total being in Temple City, which went nearly a million and a half, and Azusa, which also went over a million.

Sierra Madre fell short for July over a year ago but the first seven months show a gain.

Figures are as follows:
July, 1946 \$ 37,101
July, 1945 48,535
First seven months, 1946, 478,145
First seven months, 1945, 235,704

He is survived by his widow, Mrs. Marian Decker Shaw of 271 North Lima street, and three sisters, Mrs. Della Newton of Seattle, Wash., Mrs. Mollie Hilgert of Boise, Idaho, and Mrs. Ella Readin of Coffeyville, Kansas. Rev. Carl Smith of the Congregational Church officiated at the services. Interment was in the Sierra Madre cemetery.

THE PURPOSE OF THE AMERICAN LEGION POST

The American Legion functions by virtue of a Congressional Charter. So do the Boy Scouts of America. So does the American Red Cross. They all reflect the essence of American Principles. To the extent that they are taken for granted.

We as a nation have just fought and won another war. And a parallel has been established. Vast numbers of American young veterans are daily becoming members of the American Legion. With new experiences, and as new blood, they are merging with their fathers and their friends in an established organization, on a common basis of understanding—for a common cause.

However, many of our young veterans do not yet recognize their full potentialities as Legionnaires—nor yet the true significance of their common cause. It is vastly more than just baseball, bull-sessions, parties, dances and beauty contests; it is also child welfare, youth development, better business, the G. I. Bill of Rights, and "... to consecrate and sanctify our comradeship by our devotion to mutual helpfulness..." It is Americanism in all of its interpretations.

In time our new Legionnaires will come to know and understand all that their organization has done, is now doing and will do... because they will themselves be doing. Just as their older comrades have been doing for them during the past 27 years. As individuals, committees, posts, districts and states, they will contribute to and help maintain their comrades, their families, their community and their nation... their America.

The strength of the American Legion lies, first, in the understanding which the Legionnaire in the field has grasped of the Legion ideals, purposes and procedure; second, in the team work which the Legion member gives to his post, the co-operation between post and state department and on through to the national organization.

It is for this that they are banded together for a common cause. And it is for this that all young veterans as new Legionnaires, warrant the support of their community in coming activities and programs: "... to inculcate a sense of individual obligation to the community, state and nation..."

RATTLER SHOT SUNDAY NIGHT STURTEVANT DR.

A three-and-one-half foot rattlesnake came to a quick end at 534 Sturtevant road Sunday evening, when Officer Fred Lewis fired three shots at the snake from his service revolver in the semi-darkness under a porch.

Mrs. Ann Lindley, at the Sturtevant road address, heard the snake rattling under her porch and reported it to the police department. Several rattlesnakes have been reported to the police, from the Canyon area this summer, but most of them have turned out to be of non-poisonous varieties. There was no mistake about this one, however. He had nine rattles and a button.

Bicycle Fall Sends Barbara Fergus To St. Luke Hospital

Injured in a fall from her bicycle on West Montecito street early Tuesday evening, Barbara Fergus, daughter of Mr. and Mrs. John Fergus, of 154 West Sierra Madre boulevard, was recovering yesterday in St. Luke's Hospital, Pasadena.

With another girl, Laura Schreier, of 400 West Montecito, Barbara was riding her bicycle east on Montecito, when she suddenly swerved, her bicycle apparently striking the other girl's, and she fell to the pavement, according to reports.

Dr. Phillip Woodworth, of West Sierra Madre boulevard, was called to the scene and the girl removed to the hospital in a Grant Chapel ambulance. She was bleeding from cuts about the face, and was apparently unconscious at the time.

Hospital reports Wednesday morning indicated the girl's injuries were not serious and that she may soon return to her home.

ANNUAL MEETING SPANISH VETS NEXT SUNDAY

Eighteen veterans of the old 10th Minnesota Division, who fought in the Spanish American War, will hold their annual get-together on Sunday, August 11, in Arcadia.

Last year there were 21 "Old 10th" veterans at the get-together, out of an original total of 90 at each annual meeting. But time is taking its toll.

Coming from as far away as San Diego and Santa Barbara, they will meet at the home of William D. Fifield, 1411 South 8th Avenue, in Arcadia.

MISSOURI PICNIC

The annual summer picnic will be an all day affair, August 18th, in Sycamore Grove Park, Los Angeles.

CHERYL WALKER
Wistaria Queen of 1938

Rose Queen And Birthday Cake For Two

The Los Angeles Times of August 3rd carried a picture of Cheryl Walker who will be remembered as the Wistaria Queen of 1938 as well as the Tournament of Roses Queen of the same year.

According to the Times: "Rose Queen to need two birthday cakes—on her next birthday Cheryl Walker will have to have two cakes—one for herself and one for her daughter."

"The daughter, named Dayle, arrived at St. Vincent's Hospital Thursday, and weighed in at 6 pounds, 11 ounces. Thursday also happens to be the film actress' birthday. The mother is the wife of Dr. Jay E. Coumbe, resident radiologist at St. Vincent's. They were married six years ago."

Dr. Coumbe, with his parents, lived in the 600 block on Alta Vista drive at the time of their marriage.

When Cheryl Walker was Wistaria Queen her portrait was painted by Ludwig Madsen, Danish artist of Hollywood and auctioned off during the Wistaria Fete as part of the Flood Relief Day program.

Queen Cheryl's Court of young ladies was considered the "fairest" of Sierra Madre: Patricia West, Julia O'Grady, Grace Jensen, Martha Sharp, Hazel Rankson and Harriett Bacon.

Other guest speakers of the evening were Harold V. Connor, Deputy Dist. Governor from Pico; James C. Bone, Arcadia, and Lyman Theal of Pasadena.

From now on The Lions will meet at the Old Adobe on East Montecito.

EVERY DOG HAS HIS DAY AND NOW ITS CATS

Monday evening at 8:00 p.m. a special meeting will be held in the Council Chambers and all cat lovers are urged to attend. The California Federation for the Animal and Child Protection states that the cat situation in the city has become rather acute.

County As A Whole Rejects All Issues

Sierra Madre voters departed from the apparent county-wide wholesale rejection of all seven proposed bond issues at Tuesday's election by approving three of them, as shown by total returns Wednesday morning.

Proposition No. 2, providing for a new county jail, carried in the local tally with 247 Yes votes and 236 opposing. No. 3, proposing an enlarged juvenile home, had a local majority, 294 to 195; and Proposition No. 7, providing a series of public incinerators throughout the county, had 256 Yes votes and 228 opposed.

All other proposed measures were rejected by Sierra Madre voters, 265 disapproving the proposed new county courthouse and 215 approving 280 opposing the bond measure for a new beach park, as against 184 approving; 303 against the county museum addition and 175 approving; while 312 voters rejected the proposed new art institute, with only 159 favoring the measure.

The proposed county charter amendment raising Supervisors' salaries was overwhelmingly rejected by 307 local votes in the negative and only 143 approving the raise.

The special election brought out a very light vote in Sierra Madre, with a total of just 489 ballots cast in all three precincts.

Newspaper Authority Addresses Lions Club

W. R. Humphries came "back home" Tuesday night as a guest speaker at the Lions Club regular dinner. Mr. Humphries, who has done so much to publicize the charm of Sierra Madre, talked under the theme which has an unlimited scope, "Nothing New Under the Sun." He read from the newspaper "Sierra Vista," of August 7th, 1930 (this paper was the prelude to the Sierra Madre News). He chose to read the advertisement of a bungalow residence for sale: "Residence located on an acre lot, fine oak trees, view of San Gabriel Valley, mountains and ocean; three large reception rooms, three bedrooms, large fireplace. All interior designed in Colonial, granite foundation, all newly furnished. For sale for \$5,000; worth \$7,000, full value."

Other guest speakers of the evening were Harold V. Connor, Deputy Dist. Governor from Pico; James C. Bone, Arcadia, and Lyman Theal of Pasadena.

From now on The Lions will meet at the Old Adobe on East Montecito.

Beautiful Mahogany Craftsmanship At
Monastery Work Of Nearby Artists

In case that some of the newer people in Sierra Madre are not familiar with the traditional and beautiful wood work in the altars, pews, choir and dining room of the Monastery the above picture is shown. All of the magnificent mahogany craftsmanship was executed in medieval design, after a famous monastery in Switzerland. The work was done by Eric Nelson, who acquired his interest in architectural design when he was a youth and studied the subject in his native Sweden in a trade school. His work is the kind that most people associate with old world artisans who hand the secrets down in the family from father to son.

He superintended the work in the monastery for the Madison Manufacturing Company of Monrovia, and another fine contract he executed for them was the staves and panelling of the dean's house of Scripps College in Claremont.

FIRE FLAMES

An early Sunday morning fire call brought out firemen from various locations. Some were at church, some in their gardens, some at the shop, some at the breakfast table and some in bed. The Thomases of "Thomasville" were busy engaged in plumbing standing for a place to house participants of an oncoming wedding soon to take place. Eber Thomas is vying with Dick Hawks in getting his own fire department. When Joe Swanson now calls the roll at the regular meetings he calls them as "Thomas" "one" "two" and "three." The two older sons have taken to the fire department as enthusiastic as Eber takes to wiring a house. If the marriages are productive, Eber expects to have a well trained fire department as well as an electrician's order.

An eventful occurrence will soon take place here, when the locals entertain firemen from all points in the San Gabriel Valley. This happens once each year. The meeting comes to Sierra Madre just before the State Firemen's Convention. Much of the business falls in that category. If past meetings here are an indication—we can expect many firemen to inspect our equipment and housing. It will be necessary for us to put in a little extra time in preparation. Our neighbor Carl Hansen has again assented to open up his garage for the social capacity of the evening. To him we are very grateful, because we realize the inconvenience to his organization due to this affair. They have always responded very cordially.

Every country, every locality is known by a story which brings to public attention an incident which took place. San Gabriel Valley is unique in this respect, for not only is there a story of her thrilling early days, but actual incidents from 1771 to 1843 are being dramatized in "Bells of San Gabriel" which is playing in Mission Bowl, San Gabriel, every Friday and Saturday evenings.

The entire Mission with its historic bells forms a background before which this drama of Mission Days unfolds. The dash, romance and color of the early days is there. Father Serra is seen in the very gardens whose soil once felt the tread of his eager feet. Padres who toiled among the Indians are seen once more near the great soap vats and saddlery shops. Lovely señoritas linger in shaded corners.

Any man with six drinks in him will tell you he can drive. Just carry him out to his car and he'll prove it.

A new drug, subtilin, which may prove valuable in treating certain stubborn diseases, will be described by the University Explorer in his regular broadcast over the Columbia Broadcasting System, Sunday, August 11, at 10:15 p.m. Authority for the program is Dr. Anthony J. Salle, Associate Professor of Bacteriology on the Los Angeles campus of the University of California.

TREES
I think that I shall never see
A poem lovely as a tree.
A tree whose hungry mouth is prest
Against the earth's sweet flowing breast;
A tree that looks at God all day,
And lifts her leafy arms to pray;
A tree that may in summer wear
A nest of robins in her hair;
Upon whose bosom snow has lain;
Who intimately lives with rain.
Poems are made by fools like me,
But only God can make a tree.
—Joyce Kilmer

(This poem was made imperishable by being set to music by Sierra Madre's own Oscar Rasbach. It is now almost impossible to read it without singing it.)

WITH TREES AND FOREST POOLS, and golden rain-drop jewels, there "comes the bullfrog's steady booming, and a flutter and a zooming, under willow to the pillow where I lie."

THESE ARE THOUGHTS FOR the poet, and sometimes for me. But necessarily I must earn my salt, and to do so I not too reluctantly turn my mind to practical affairs such as cabbage and corned beef, macaroni and cheese, green beans and ham. So lend me your shell-like ear:

IN THE CABBAGE DEPARTMENT, which is my own pride and joy, I am happy to be able to stress not only Cabbage, white and red; but crisp, Utah-type Celery in several sizes; fancy, northern Lettuce (cheap, now); fairly good Okra; vine-ripened "stem" Tomatoes; medium or large ripe Bartlett Pears; several delicious varieties of plums; and fancy, northern Hale Peaches, this week specially priced by the lug for canning. ALSO water-melons, Cantaloupes, Honeydews and—Oh, Everything!

IN THE GROCERY DEPARTMENT there is almost everything you want, including Maine Sardines, Riviera Chicken Ravioli, Clothes Pins, Butter, Jams and Jellies, Myra Nye's Orange Honey, Burry's Sniffies, Dorothy's Biscuit Mix; and Parlyn DDT for flies.

Since I previously mentioned CHEESE, I will call your attention —by Curly's direction — to our aged, Wisconsin Longhorn and Swiss Cheeses, but particularly to an unusual Italian Provolone Cheese which has a delicious, smoky flavor reminiscent of good, old New England ham. I will admit that this relationship seems incongruous, and there was some speculation among us about the possibility of New England pigs and Italian cows being promiscuous, still CURLY and POP assure me that this hybrid cheese would be mighty good with beer; if you can get the beer—and probably you can, but not in cans. For goodness sake!

NOW I DON'T LIKE to talk about CURLY too much, but there is a story about the store to this effect: Eddie Robertson came in the other day for a can of black pepper. Naturally, he had trouble finding the pepper, but he did find salt. There were boxes, bags and cartons everywhere. CURLY came over to help him find his can of pepper, and there being none on the shelf, Eddie followed CURLY to the back room, with the hope that he might find pepper there. What he saw was case on case of salt of all kinds stacked clear to the ceiling. Finally, CURLY says, "I'm sorry, Eddie, but there's no pepper." Then Eddie says, "Boy, you must sell a lot of salt!" "ME," says Curly, "No, I can't sell salt. But the guy who sells me salt — boy, can HE sell salt!"

Recently Married Couple Will Make Future Home In Nearby Pasadena

At the parsonage home of Rev. and Mrs. H. S. Sheriff, Saturday night, Miss Roberta Thew and Meredith Reynolds made their wedding vows before a few close friends. The bride, daughter of H. A. Thew, 70 Windsor Lane, wore a gray summer suit with the white accessories. Her corsage was gardenias and pink roses.

The matron of honor, Mrs. Mabel Corneth, chose a tan suit with the gray accessories. Her corsage was identical with the bride's except smaller. The best man was the bride's brother, Clark Thew. The bridegroom is the son of Mr. and Mrs. John Reynolds of Pasadena. The future home of the Mr. and Mrs. Meredith Reynolds will be at 623 Michigan Boulevard, Pasadena.

BALLING BABY TALK

By MAXINE BALLING

THERE'LL BE A MOB

All the stores are having a big city-wide "lemon sale." Business has been so wonderful at the Balling Baby Shop we didn't think we had any "lemons" but when we found time to look over our stock we decided we had a number of near-the-end-of-the-season things that may be we should whack off the prices, as much as we hate to. "All the stores are cooperating," the man said, "OK! The Balling Baby Shop may be a little store but when we cooperate, we cooperate in a big way."

WE'LL HAVE A \$1 TABLE. On that table will be girls' \$2.50 to \$2.98 straw hats, \$1.59, \$1.45 and \$1.95 sun suits, including seersuckers and heavy butchers' linens and Klondike materials, and a few boxer swim trunks. For ONE DOLLAR! And they're not "lemons." They're summer things. (There are still six weeks of warm weather, and all next summer to wear them.)

WE'LL HAVE A \$1.50 TABLE. Here we'll have quite a selection of our \$2.25 sun suits, including seersuckers and other cool materials. And our \$1.95 boxer swim trunks with inner pants.

THEN WE'LL HAVE A RACK OF PINAFORES, including organizes, seersuckers and other materials that have been selling for \$3.95 to \$4.95. These will be \$1 off the marked prices. And THESE aren't "lemons." They're the sweetest little things you ever saw! All new this summer.

Boys' summer suits with short pants, sizes 5 to 8, were \$2.95 yesterday, they'll be \$1.95 Friday. Saturday there probably won't be any at all!

\$2.75 leather sandals will be 1 1/2 price. HALF OFF! Sizes 10, 11, 12, 13 and 1 and 2 Sr.

AND we have several dozen Jumbo Knit, virgin wool, sweaters in sizes 7 to 14, that were \$4.50, \$4.75 and \$4.98. Lots of nice colors. Half price. And THESE aren't "lemons." They're not even summer merchandise. They were here when we bought the store last April and we're tired looking at them (Half price . . . WOWIE!)

WE'LL probably be "half off" by Saturday night, half crazy. For in times like these, with merchandise as hard to get as it has been, and if the other stores in Monrovia advertise "lemons" as sweet as these at the Balling Baby Shop, there really will be a crowd. Oh well, it'll be fun. The Balling Baby Shop is at 401 1/2 South Myrtle, in Monrovia, where they always do things in a big way.

A big water carnival, to include demonstrations of life saving and water sports, will conclude Red Cross swim week Saturday night at the Canyon Park Plunge. More than half of the 125 adults and children taking swimming or life saving lessons during the week under George Hughes, University of Berkeley coach, will take part in the carnival.

The Little Art Gallery will exhibit original pictures by local artists at the art promenade in Los Angeles on Art Day, September 11, which will be celebrated in conjunction with La Fiesta. Mrs. Fred Griebnow, art chairman, has charge of all exhibits.

Sierra Madre's first aid crew of firemen, captained by Joe T. Simon, is undergoing rigorous training in preparation for the first aid contest to be held at the Pomona county fair in September.

AROUND AND ABOUT

By EDWARD LLOYD VOORHEES

August 8, 1946.

MID-SUMMER LONDON—The "Tubes," the slums, and the Tower.

It was interesting to note how different are the subways—"underground" or "tubes," as they are called in London—from those of New York and Paris. For one thing, those of London are very much farther under ground—a fact which proved a godsend to the untold thousands of plain people who slept in them—or tried to—during the many months of nocturnal air raids in the recent war. Indeed, their shelter saved many lives in the first World War. Contrariwise, it is painful to speculate on what a death trap the near-surface subways could prove to such refugees in New York and Paris. Also, because of their depth and the difference in climate, I found the London tube stations and passages always cool and comfortable in mid-summer, with a very brisk breeze coming through them in certain localities; whereas, the air in the underground stations in Paris and New York during the mid-summer is almost unbearably close, vitiated, and "sticky." But whereas the New York subway cars are made bearable by electric fans, the cars in London and Paris, at least at that time, were noticeably less comfortable from the lack of them.

In London it seemed a novel thing to take a "lift" to go down, the equivalent of five or six stories, it seemed, to reach the trains—which reminds one of the equally amusing fact that in Boston one must sometimes go down a stairway under ground to reach the elevated trains! Even at that time the London tubes had well-marked "emergency" stairways, the crowds were very orderly as a contrast to the variety of human cattle-stampedes that goes on during New York's "rush hours," with guards pushing the passengers through the car doors! The London voice in the underground, as elsewhere, is low pitched and low spoken. The designation "tube," which sounds odd at first to us, proves a logical and precise term when one sees that the tunnel is literally a giant oval tube in shape. The underground, like most other landmarks and institutions in London, has taken a firm hold on the affections of the people, for it has not only been a subterranean city of refuge from death to hundreds of thousands in worst times, but it is a major convenience always for all classes of society.

"IT'S EASY TO PARK HERE"

V-J DAY ONE YEAR AGO

Until last year the month of August enjoyed virtually no distinction from the standpoint of American history.

Independence Day comes in the month before it, Labor Day in the month after it; two great Presidents have birthdays in February; Inauguration Day was in March for nearly a century and a half and now January has that distinction; World War I began in April; the Japs bombed Pearl Harbor in December; Memorial Day is observed in May, Flag Day in June, and Thanksgiving in November.

But August was noted for little else than its heat—until 1945. But then it came into its own historically in no uncertain fashion. On August 6 the Atomic Age was formally begun with the blast that leveled Hiroshima. On August 8 came the Nagasaki explosion. Then on August 14 came the Day of V, the long-sought-for, long-fought-for day when the Japs finally called it quits.

Now a year has rolled by and historic August is here again. We have done a lot of living in that year. We have seen Japan taken over and reorganized by General MacArthur. We have waited hopefully and vainly for China to settle her internal conflict, we have watched the Philippines emerge as a new and independent nation, we have heard atomic bombs 4 and 5 explode at Bikini. We have lived a lot since last August.

We have witnessed the burial of OPA and the exhuming of the corpse, we have watched the 11-million-man armed force shrink to about one-tenth of its wartime size, and we have listened to the world pray for lasting peace while it prepares for another war. Yes, we have lived a lot since last August.

Our hope is that in the year between now and next V-J Day the world will experience more on the constructive side, more that will contribute to a greater harmony among nations, more that will give us reason to hope for a better future and a better world.

Stillwell Hdqs. Organize Reserve Corps Unit In West

General "Vinegar Joe" Stillwell's Sixth Army Headquarters last week announced activation of the country's first Organized Reserve Corps units in seven Western states, to initiate the Army's post-war program of organizing and training in times of peace units capable of rapid mobilization, expansion and development in the event of an emergency.

This is the first step in a program which, together with the National Guard and the Regular Army, is designed eventually to provide an over-all force of almost 4,000,000 men thoroughly trained in the methods of modern warfare. Sixth Army plans to activate soon large numbers of additional units in all eight western states in the army area and expects that the whole program will be underway before the end of the year.

Units will be activated in all types and sizes to insure a well-balanced, self-sufficient force capable of engaging in any type of operation. They will range from small technical units up to full strength infantry and armored divisions.

Units now being activated will be staffed with a minimum of 80 per cent officer strength. Initial personnel will be obtained from veterans who served honorably in World War II. Assignment of duties will be made on past experience and training and promotions may be earned on the same basis as in the Regular Army.

ADD TO ITS SELLING VALUE WITH ADEQUATE WIRING

Proper electric wiring adds far more than its cost to the value of a house. By providing circuits, outlets, and switches adequate in size, number, and location, proper wiring permits the full use of electrical equipment upon which modern living depends. Any home that is not adequately wired

is out-of-date. Good electric wiring keeps a home modern for many years. Yet, on the average it costs only 4% of the total building budget!

POLICE BLOTTER

A small fire from spontaneous
combustion is reached by the night
fireman before damage extends
to other property. Sawdust and
shavings from floor work was the
cause. . . A man with a heavy
load fell under the strain. . . Because
he was unable to arise, officers
were investigated and it
is found that his load was
heavy. He met Judge Eaton in
the morning. . . Petty theft reported.
Investigations are in
progress. . . An injured possum
as more than injured—it had
me sort of scurvy. Disposal was
immediate and up to the minute.
As Leonard Barrett, 312 East
Montecito, appeared at the police
station in search of his dog that
had escaped, the telephone rang
and a lady at 50 East Laurel reported
a stray dog there which
proved to be Leonard's pet.
An attempted burglary was stopped
at the window. The screen
shattered had been removed
lightly, but the invader must
have heard something or other.
Nothing missing except the culprit.
A barbecue pit being
used with permission arouses
fright to far away neighbors who
sighted the smoke. . . An abandoned
car held the owners within
its bounds. They evidently were
invisible to the reporter. . . A
white rabbit is reported running
loose in a certain neighborhood.
It was referred to Cotter, but it
has not yet been determined
whether he caught her. . . Fire
hazards reported. Referred to
Heasley for investigation.
The loud blasts heard were those
of a permitted rock breaking exploit,
and we might add it was
quite an explosion. . . A stray
cat for Cotter. . . The cops are
notified that a town office that
would ordinarily have been closed
for the night will now possess an
occupant. . . Here is another in
search of Cotter—a home forMeet Leo LeFave, youthful
Southland sportsman, who is the
guiding genius behind the world
premiere of the mighty midgels
which is slated for the famed
Pasadena Rose Bowl, Tuesday
evening, August 13.WINNING WINDUP . . . George
McGovern, 11, a future big league
southpaw, who adds a bit of tongue
technique to his windup. George
is top pitcher in Class C league

Mass.Hint for Vacationists: After
you've driven ten hours without a
stop you will need a long rest.
You'll get it too, if you drive
much farther.Noah's Ark cruised around forty
days and nights before it came
to a stop—just about the length
of time it takes the average
driver nowadays to find a parking
place.A loud party toward
the cops is interrupted by the
cops after neighbors' suggestion.
Promised to be quiet. . . A fire
call brought out the early Sunday
morning risers. . . Trash dumped
in the wrong place brings a
prominent family a reminder that
such things cannot be done. They
removed it to the proper place.Once more "Never Miss
Lewis," the town's one shot cop,
has lived up to his reputation.
What was supposed to have
been a rattlesnake that has crawled
under a porch met death at the
sight of Lewis. That is, he
looked through the sights of his
38 and the rattler was no more.
A threat from one to another
calls the police. . . Another
traffic collision. No one hurt.
A grand theft is reported.
Seldom this. . . Officer
Jack Rutledge proves that the
proverbial which he was called to
catch was a skunk and not the
two-legged kind. Jack escaped
the afterdamp. . . When a truck
driver got himself boxed in between
cars, it was with some
difficulty that he got out. An
argument ensued. Which comes
quite naturally.

peacetime world was the theme of a 12 day conference and training course in San Francisco, from which Mrs. Florence H. Peterson, executive secretary, returned to Sierra Madre.

An official visitor to the local Red Cross office this week was E. M. Schottland, disaster field representative from National Red Cross headquarters, who conferred with the local executive secretary on the local disaster preparedness program. Plans were discussed for reorganizing the local disaster plan to meet the charter obligations of the Red Cross to supply food, clothing, shelter, rehabilitation and medical aid in the event of a disaster in the area.

The old-fashioned camp meeting, which will begin August 16 and continue for ten days, will be complete with family tents, cafeteria, early morning devotional meetings and nightly evangelistic addresses. Some 15,000 people are expected to congregate on the camp grounds for the event.
